## MRS. DEAN DEAD

PASSED AWAY LAST NIGHT AFTER LINGERING ILLNESS.

## PARALYSIS WAS CAUSE

The Funeral Services Will Be Held Wednesday Afternoon at 2 o'clock at the Home.

Mrs. J. W. Dean passed away at 8:20 o'clock Monday evening after a lingering illness. Her death had been expected for several days and all of her family were at her bedside when she died.

Mrs. Dean had been in failing health for three years, when she was stricken with paralysis on May 11 last, and had been entirely helpless since, not being conscious or able to ask for a drink or anything to eat in all that time.

The funeral services will be held Wednesday afternoon at the residence at 2 o'clock and will be conducted by Rev. Gilbert S. Cox of the First M. E. church. Burial will take place in Miriam cemetery.

Dr. Dean, who has been a practicing physician in this county for forty-five years, retired two months ago to give his attention to his wife. They were married August 20, 1863, at Gosport, Ind., fifty years ago August last. Mrs. Dean's maiden name was Nancy A. Dyer and she was born at Gosport, September 28, 1845. Dr. Dean practiced his profession at Gosport, which was also his native place, for five years after his graduation from Rush Medical college of Chicago. They came to Maryville to make their home September 7, 1868, and this has been their home since. Five children were born to them, all of whom survive with their father excepting one son, Llewellyn P. Dean, who died four years ago. The other children are Dr. Charles G. Dean of Burlington Junction, Mo.; wife of Judge J. E. Douglas of Pittsboro, Mo.; Dr. Leslie E. Dean of this city, and Miss Ethel Dean, at home. She also leaves a brother, Clinton Dyer of Gosport, Ind., and a sister, Mrs. Florence Legge of Burlington Junction.

Mrs. Dean was converted and became a member of the Methodist Episcopal church fifty-two years ago and lived a consistent Christian life. She was of a modest, retiring disposition and had little part in things outside of her home and church affairs.

### Notice.

The body of Mrs. J. W. Dean will lie in state from 10 a. m. to 2 p. m. Wednesday. Friends wishing to view the remains please call at the residence, 704 North Main street. All the doctors in the city are especially invited to attend the funeral services.

### FOR MR. SMITH.

A Big Time at Sunday School at First M. E. Church—Christian Church Sent Resolutions.

Sunday was a big day at the Sunday school of the First M. E. church, as it was the last Sunday for W. F. Smith, who has resigned as superintendent of that school, after fifteen years of service. A special program of music and recitation in Mr. Smith's honor was given, and Rev. Gilbert S. Cox delivered a talk expressing the thanks of

W. F. SMITH.

the school to Mr. Smith. Mr. Smith responded in a few words. H. C. Fowler was installed as the new superintendent of the school.

One of the features of the special service was the appearance of a fraternal delegate from the Christian church Sunday school, bearing a copy of resolutions and love and respect passed unanimously by that Sunday school. The resolutions follow.

Whereas, William F. Smith has for fifteen years been the loyal and efficient superintendent of the First Methodist Episcopal Sunday school, and

Whereas, Word now comes to us that his term of service is ending, and that he is removing from Maryville; therefore, be it

Resolved, By the First Christian church Sunday school, that our superintendent appoint a fraternal delegate to carry to the First Methodist Episcopal Sunday school our Christian love and greeting to Brother Smith, our warmest congratulations and felicitations upon such a splendid term of service. He has contributed to the up-building of God's kingdom as much as any individual could have contributed during these years, and we recognize in him a Christian brother and fellow worker.

Unanimously adopted this 21st day of December, 1913.

G. B. ROSEBERRY,  
Superintendent.

Mr. and Mrs. Sherman Pope, Miss Ruby Clements and Mrs. C. C. Pattison of Arkoe were shoppers in Maryville Monday.

## WATER MAINS HERE

THE CASTIRON PIPES ARRIVED IN MARYVILLE TODAY.

## TO USE WHERE NEEDED

And Where They Are Most Needed—Manager Denny After Customers Today.

The pipes for a two-mile extension of the mains of the water plant arrived today, and if the weather will permit the work will be started at once. Otherwise the mains will be installed next spring. The pipes will be put in the southeast and the northeast part of the city, as they are more needed there than anywhere else.

The first shipment of the pipes was in two cars and there is another car on the way, and three more will be received next week. E. E. Tilton was given the job of unloading the pipes. The pipes are 12 feet long and weigh about 370 pounds.

The mains are to be put where they are the most needed, and where there are the most customers. Manager Lou Denny is out this afternoon in the southeast and northeast sections of the city seeing people in those neighborhoods to get them to become water customers. He has the contracts with him which are to be signed by those desiring to become water consumers.

On the route of the new main line new fire plugs will be put and fire protection will then be had in these districts.

### DEATH OF JAMES A. YARNALL.

Passed Away Sunday at Colorado Springs—Burial in Maryville This Afternoon.

James A. Yarnall, at one time a well known resident of Maryville and Nodaway county, and for years a farmer of Jackson township, died Sunday night at Colorado Springs, Col., at the home of his son, Alfred Yarnall. Mr. Yarnall had been in poor health owing to a general decline for six months and his death was not unexpected. He had spent several years traveling in the west, spending the greater part of his time at Los Angeles and other Southern California points. He was quite gifted as a writer and for several years contributed interesting accounts of his travel to Maryville papers.

The body was brought to Maryville Monday night by his son, and burial services took place Tuesday afternoon at 1 o'clock at Miriam cemetery.

He is survived by the following children: Mrs. Reginald Severance of El Paso, Texas; Alfred Yarnall of Colorado Springs, Col.; Misses Hortense and Byrde Yarnall of El Paso, Texas; Stanley Yarnall of Denver, Col.; Mrs. Stanislaus Morrell of Los Angeles, Cal.; Mrs. Richard Everett of Ketchikan, Alaska; Miss Florence Yarnall of Imperial, Cal. Another son, Angelo Yarnall, died in 1901 at Napa, Cal.

Mr. Yarnall was born in Vermilion county, Ill., May 24, 1841. At the age of 13 years he emigrated with the family to Missouri and settled in Jackson township, in this county. He was there raised to manhood and received an education from the schools of the county. He was united in marriage November 12, 1865, to Miss Rebecca S. Scott, a native of Missouri.

In 1861 Mr. Yarnall enlisted in the six months call for volunteers, and after serving that length of time, in April, 1862, he enlisted in Company C, Fourth Missouri state militia, and served till the close of the war. He participated in the battle of Springfield, Mo., Horse Creek and many others of lesser note.

### Ralph Farmer at Home.

Ralph Farmer, son of Mr. and Mrs. S. E. Farmer of this city, came home Saturday evening from Oberlin, O., where he is attending college, for the holidays. This is his first visit home since he left Maryville, eighteen months ago, to begin his college career. Through the summer vacation he was employed on a freight boat on the great lakes, first as a deck hand and later as a day watchman. He enjoyed his work immensely and went to study in the fall with a big supply of vigor. He will take the same kind of work the coming summer, but it will be more important, because of his experience.

## SANTA WINKED HIS EYE.

But Which One It Was the High School Sophomores Can't Tell—They're Worried.

It has been rumored that Principal Clyde Busby of the high school had suggested to his sophomore history class that it might be necessary for them to fall back on Santa Claus for a passing grade in history. As such remarks often do, this one stuck in the minds of these youthful delvers in things antique, and so imagine the surprise of the principal when, upon entering the history room Friday morning, he was confronted by a row of stockings suspended on wires, and to each one there was attached a Christmas petition. They all started out something like this: "Dear Santa Busby," and all conveyed the idea that the most acceptable gift that St. Nick could bring them would be a history grade. But Santa Busby just smiles and says he'll think about it.

### VISITED WITH BROTHER-IN-LAW.

D. S. Holmes Surprised Monday by His Son-in-Law, C. H. Ashford of Portland, Ore.

Her death occurred last September in Pasadena, Cal., several years they had been living for several years for the benefit of their health. He was a lumber merchant in the state of Washington during a greater period of their married life. He sees many improvements in Maryville that have taken place between his wedding day and his visit here Monday.

### KEPT THE THREE HUNDRED.

Baptist Church Sunday School Did Not Fall Backward Sunday on Account of the Cold Weather.

There was a contest on Sunday between the Amoma class of young women and the men's class, taught by the pastor, Rev. L. M. Hale. The Amomas had challenged the men's class the Sunday previous for the biggest class and the men accepted.

The men registered sixty-five in class, while the Amomas had forty in class, with ten others on the teaching force. But they do not regret the challenge they gave, for it was a sight worth seeing, and there was no sting in their defeat, when the Amomas marched from the class room to the auditorium and there beheld sixty-five men in Rev. Hale's class.

The total attendance at this school was 309, with \$9.81 collection. The work to keep up the attendance will not cease. The workers have never been so in earnest and the class study is increasing in interest each Sunday, especially the study of the New Testament in the men's class being taught by the pastor.

## VALUED AT \$65,000

THE P. O. BUILDING IS WORTH THAT MUCH.

## SO SAYS GOVERNMENT

Furniture is Valued at Over \$4,000 and Land at \$8,000—Postoffice a Busy Place Now.

According to the report of the treasury department at Washington, D. C., the postoffice building is valued at \$65,123.78. The value of the land, covering a quarter of a block, is valued at \$8,000, and the furniture and other items are \$4,329.84. The total value is \$77,453.62. The foregoing is a report from the treasury department to Postmaster S. R. Beech. The building was built by that department and is being loaned to the postoffice department as a postoffice.

One of the real busy spots of Maryville today was Uncle Sam's place of business. In the federal quarters Postmaster Beech and the force of clerks were working at every window and accommodating those eager to get the parcels post packages off to friends. While a big outgoing business is being handled at the windows the Christmas rush of incoming mail matter and packages has started. Carriers and special parcels post men are busy with the gift deliveries.

"Mail early, wrap securely and address plainly" are still the mottoes of Uncle Sam for the next few days.

They opened the Manley and Rogers farms, north of Maryville, and sold them when they went to San Antonio some thirty years ago, for the benefit of their health. John Wing never married.

Captain Wing was a native of New York and during the civil war was a captain in a New York regiment. He is survived by his wife, who was unable to make the trip to Maryville, and three daughters, Mrs. B. L. Taft, Miss Harriet Wing and Mrs. Wesley Teacock, all of San Antonio. ## A CHICKEN THIEF

GEO. LOOMIS, NEAR CLYDE, FOUND CHICKENS MISSING.

## SOME DETECTIVE WORK

Followed Clues to Conception Junction, Got the Thief and Brought Him to Maryville.

When George Loomis, a farmer living four miles northeast of Clyde, left his residence Tuesday morning to attend to his morning chores, he noticed tracks in the snow out by the fence, and on investigation found that some one had been there in the night and tied a horse to the fence.

Following the tracks, they led to his chicken house. That looked interesting, so he decided to count the chickens and found that some were missing. He followed the tracks back to the fence, then followed the tracks of the horse a half mile north of his house, then a mile west and a mile south of Clyde, and lost all trace there.

By using the telephone he found that a man had sold a dozen hens to James Donnelly, the poultry buyer at Conception Junction, receiving \$5.15 for them. Mr. Donnelly remembered that he had bought another dozen chickens from the same man about a week ago, early in the morning, and he asked him at the time how it happened he was out so early. The man gave his name as George Brown and said he had to get to husking corn, so when he appeared again Tuesday morning with another dozen, giving the name of George Brown, as before, Mr. Donnelly thought nothing of it, as he supposed he must be off at husking corn again. He said he lived east of Clyde.

Wednesday morning Brown did not go to work, but put his horse in a livery barn and proceeded to have a good time.

His deed was soon proven, however, and he was arrested by Constable Gabe Purcell Tuesday afternoon and brought to Maryville by Mr. Purcell and Mr. Loomis.

He gave his name as Frank Sheldon. His preliminary trial will be before Justice R. L. McDougal Tuesday evening.

## LEWIS URGES PUBLIC OWNERSHIP OF PHONES

### Maryland Representative Says it Presents No Great Problems.

Washington, Dec. 23.—In an exhaustive analysis of his proposal to have the nation's telephone lines operated by the postoffice department, Representative Lewis (Md.) told the house that government ownership of those lines would cost less than \$300,000,000 and would present no greater difficulties than did the Panama canal.

Mr. Lewis, who took a leading part in the establishment of the parcel post and who has made a study with post-office officials of government ownership of the electrical lines of communication, does not propose to have the government take over the telephone companies. His plan is to have the government first own the telephonic network of the country, operate some of the telephone lines as telegraphs, as is now possible under modern mechanical conditions, and have the government system compete with the private telegraph companies at the outset in the same proportion as the parcel post now competes with the express companies.

"The perversion of the laws of public and private financing," said Mr. Lewis, "by which governments have been disinherited of their normal functions, has led to such corruption and demoralization that cities like New York, with its street railways, Philadelphia with its gas works and San Francisco with its telephones, have shamed even the actions of Roman corruption in their most dishonorable days."

Although Postmaster General Burleson, in his annual report, favored the proposal of government ownership of telegraph and telephone lines, President Wilson has not taken a position on the question and has not made up his mind.

The postmaster general had a long conference with the president and it was understood that was one of the subjects under discussion. It is not believed that the administration will take any definite position on the subject now.

After his conference with the president Mr. Burleson manifested an indisposition to discuss the subject.

"It will take some time," he said, however, "to work the problem out and to get facts and figures on it."

### PANKHURST AT OUTS

Misses Sylvia and Cristabel Quarrel Over Funds.

London, Dec. 22.—Mrs. Emmeline Pankhurst, the militant suffragette leader, left London for Paris on the way to Switzerland to recuperate from her weakness brought about by "hunger and thirst strike" in Holloway jail, from which she was released on Dec. 17. Her departure was not accompanied by any of the usual demonstrations.

Rumors were in circulation that relations were strained between Miss Sylvia Pankhurst and Miss Cristabel Pankhurst, the two daughters of the militant leader. In consequence of Miss Sylvia's determination to concentrate her campaign in the east end of London and in efforts to cooperate with the members of the Labor party, Miss Cristabel disapproves of this scheme and is said to be withholding funds.

## HUGE SEAS SWEEP OVER PACIFIC LINE

### Steamer Mont Eagle Hove to for 24 Hours in Mid-ocean.

Vancouver, Dec. 23.—According to word brought in by officers of the Empress of Asia, the big Canadian Pacific steamship, Mont Eagle hove to for twenty-four hours in mid-Pacific on her present outward voyage from Vancouver to Hongkong, owing to huge seas sweeping over her and threatening to wreck her deck fittings and cabins.

While the Empress was reeling off eighteen and one-half knots an hour, a wireless message was received from the Mont Eagle, stating that she was hove to in latitude 53 north and longitude 160 west, with a howling easterly gale raging and a terrific sea sweeping clean over her.

The Mont Eagle ran into dirty weather as soon as she passed outside Cape Flattery. Southeast gales battered the ship and the disagreeable conditions reached their height when the liner was in mid-Pacific. The ship was hove to for about twenty-four hours when the storm subsided somewhat and enabled her to proceed at slow speed.

### Professor Wyman Resigns.

Cambridge, Mass., Dec. 23.—The resignation of Professor Bruce Wyman from the faculty of the Harvard law school was accepted by the president and fellows of Harvard college. Under examination before the public service commission Professor Wyman, who had written and lectured frequently on transportation affairs, stated that he had received from the New Haven road a salary for legal services.

"Broncho Billy," Fern tonight.

### Burleson for Civil Service.

Washington, Dec. 23.—Postmaster General Burleson has taken a stand against the proposal to take assistant postmasters from the protection of civil service, which is embodied in the annual appropriation bill now in the hands of the house postoffice committee. Huerta Issues Decree in Order  
to Check Bank Run.

## FEDERALS REPORT SUGGESSES

Advices of Victories at Tepico and Mazatlan Reach Capital—Communications Restored in Northern Mexico, According to Carranza's Minister.

Mexico City, Dec. 23.—Provisional President Huerta has issued a decree making every day until the end of the year a legal holiday in order to check the run on the banks, particularly that on the Bank of London and Mexico.

On the promulgation of this decree the Bank of London and Mexico opened its doors, but refrained from paying deposits.

Provisional President Huerta says in the decree he deems such action necessary to protect the banks until public confidence is more nearly restored. By the decree the banks are absolved from meeting any obligation until Jan. 2. It applies to all banking houses whether a bank of issue or not.

With the exception of the Bank of London and Mexico and the Central bank, none as yet have taken advantage of the decree and business at the other institutions is being conducted as usual.

Crowds gathered about the doors of the two banks mentioned, but there was no disorder. Both banks are being strongly guarded by police.

Federal successes at Tepico and Mazatlan, on the Pacific coast of Mexico, are reported in official advices received here. The rebels are said to have been severely punished in a fight with the federal troops eight miles from Tepico, the capital of the territory of the same name, while the federal forces which had been besieged at Mazatlan for many weeks are said to have assumed the offensive and to be forcing the rebels back toward Culiacan, capital of the state of Sinaloa.

Rebels Control Three States.  
Hermosillo, Sonora, Dec. 23.—Communications by rail and wire have been practically restored throughout northwestern Mexico, according to an announcement made by Ignacio Bonillas, secretary of communications in General Carranza's provisional cabinet.

This is assisting materially the constitutional campaign by putting the various insurgent leaders in close touch with the general headquarters here. Telegraph lines have been restored in the states of Sinaloa, Sonora, Chihuahua and Durango, which comprise a section of northwestern Mexico about 800 miles long and about 500 miles wide. In this territory the federalists hold only the coast towns of Guaymas, on the Gulf of California, and Mazatlan, on the Pacific ocean. Constitutional officials assert that only the presence of two federal gunboats on the coast has prevented the capture of these ports.

## ALIEN ST ON WITNESS STAND

Testimony of Dr. Jelliffe Indicates Schmidt Is Abnormal.

New York, Dec. 23.—The procession of alienists began their march to the witness stand at the trial of Hans Schmidt for murder. Dr. Smith Ely Jelliffe of New York had testified for the defense.

Practically all of Dr. Jelliffe's testimony indicated that Schmidt was abnormal. The witness said the priest complained to him that his bishops and fellow clergy "refused to acknowledge his authority." The defendant excused his longitudes of the signature of his professor at Munich by saying "I was in high spirits and good health, and I entered into the personality of the professor. I was the professor. So it was not wrong for me to sign his name."

Dr. Jelliffe asked Schmidt if he ever played the violin in a bathtub, as one of the former witnesses had testified. "I did," said Schmidt. "It was nobody's business. I felt like it, and I put my feet in the water, and sat in it and played. What an inspired man does heaven wishes him to do."

During one of his visits to Schmidt's cell, said Dr. Jelliffe, another person who accompanied him picked his forehead with a needle, and showed the prisoner a drop of blood. Instantly Schmidt's face became livid.

"All blood is mine," he shouted, making a lunge for the person's hand, trying to raise it to his lips.

D.), Cooper, Cramton, Curry, Davis, Dillon, Esch, Farr, Frear, Haugen, Delgeson, Kelly (Mich.), Kelso, Kinkaid (Neb.), La Follette, Lenroot, Miller, Moss, (W. Va.), Nelson, Nolan, Norton, Slinnott, Sloan, J. M. C. Smith, Samuel Smith (Mich.), Stafford, Stevens (Minn.), Sutherland, Treadway, Young (N. D.), Minahan, Mapes, Stephens (Cal.), Woodruff—37.

## Summary of Currency Bill.

Generally speaking, the first steps to be taken to bring into operation the nation's new financial system will be through an organization commission, consisting of the secretary of agriculture and controller of the currency. Banks have sixty days within which to file their applications for membership in the new system, and one year's time to allowed before the government will compel the dissolution of any national bank that refuses to join.

The new law will make little direct change in the operation of the present national banks, except to allow them to loan a certain amount of their funds upon farm mortgages. Its chief purpose is to add a new piece of machinery to the banking system that "will take up the slack" during business changes of each year; that will give the banks a place to quickly convert their assets into cash in time of need, and that will bring out new federal currency when it is needed and retire it when money becomes "cheap."

Banks are now required to keep a certain percentage of their deposits as "reserves," part in cash in their own vaults and part of which may be deposited in the banks of New York, Chicago, St. Louis and other designated cities. In times of sudden financial demands when banks have loaned up to the full limit of their resources, these reserves furnish little relief, because if they are paid out to meet demands the banks are left in a precarious condition.

The basic principle of the new law is to get these reserve funds out into circulation when necessary without lessening the safety of any bank and to provide a place to which local banks may rush in a crisis and get cash for the "prime commercial paper" they hold in their vaults.

## Reservoirs of Reserves.

This is to be accomplished through a chain of regional reserve banks, or reservoirs of reserves, in which all banks shall deposit a stated part of the money they are required to hold as reserves. Under the new system when a financial flurry comes the banks can take commercial paper, such as notes, drafts and bills of exchange to these "reservoirs," or if necessary, even the reserve of other banks, by depositing this security.

The new regional banks will receive about one-half of the bank reserves of the country. They, in turn, will be permitted to loan back to the banks all but 35 per cent of these reserves, so that in case of emergency millions of cash can be brought out into circulation quickly. The banks will have to pay for these loans, however, as individuals have to pay for a loan from any bank and this charge is expected to prevent the too free use of the reserves held by the regional banks.

## New Form of Currency.

A new form of paper currency is also provided for to come out in case of emergency and which is expected to go back into the hands of the government when times are normal. These "treasury notes" will be printed by the government and issued through each regional reserve bank and will bear the guarantee both of the regional bank and the government.

If the demand for currency in any section of the country exceeds the supply of circulating money, a regional bank can secure this new money from the government and put it into circulation; but a gold reserve of 40 per cent and commercial paper equal to the full value of the note must be held as a reserve behind each note so issued. This provision is expected to be the influence that will drive the new money back into retirement when it is no longer needed.
